

Francis Lee Utley Collection: Reference

Below is an inventory of the materials included in the Reference section of the Francis Lee Utley collection of papers. Boxes of correspondence, manuscripts and other personal items have been removed and are housed at the University Archives. (The result is that some box numbers are missing from this inventory.)

When possible, dates have been included on folders containing the materials; however, some folders say "various dates" to indicate the span of sometimes hundreds of years for publication dates of articles and other publications enclosed therein. In other cases, folders will say "n.d." or "ND" to indicate that no date was found on the materials inside.

Please note:

These materials first arrived in the Rare Books Department many years ago, and they subsequently were transferred to the Archives. Along the way, they have been reboxed and relocated several times. Consequently, in some cases, the box number on a box might not match the one listed in the inventory. There also are several boxes listed in the inventory that have the same box number; this is another result of the reboxing and relocation that has occurred with this collection. A small "a," "b" or "c" has been placed next to the box number to distinguish one box from another. In addition, at the end of the inventory there is a box of materials without a box number. This box has been transferred with the rest of the reference materials, but the box number was not recorded in the inventory.

Box 2

1. Notecards: Miscellaneous cards on various research topics: n.d.

Box 3

1. Reference: Folklore: Anderson, Walter: Ein Sonderbarer Fall von Sagenverwandtschaft: 1914
